

① Tech not science  
+ creates culture w/ moral found.

---

① ~~Secretes~~ - wr. wrecks memory - we don't internalize  
this the dark side no one sees

Freud - inf. mort. decrease a detriment  
memory ≠ recollection      wisdom ≠ knowledge ≠ competence  
schools oblivious to it all

Pa shortchanges oral ed. - the earliest kind

\* who gains from the tech.

TU changes the context + lang,  
Science + Tech quantify everything w/ numbers

\* must see both sides but cant  
orality stresses group, cooperation, responsibility  
computer = egocentrism

---

② Tech creates reality of how we see - not just what  
Tools solved everyday problems or make for art, politics, religion

Technology - Technocracy - Technopoly  
↓ tools play central role in thought process  
clock, printing press, telescope

f - early science about truth - not power

Bacon - science improved the human condition

---

③ Investing begins 18th C. - leads to money  
anyone can invest

money not land becomes key to wealth  
people become consumers - not children of God

19th C. education/literacy goes beyond the elite
